# Let's Explore EAST BAY AUGUST 01 - 18 THRIFT STORE CRAWL 2026

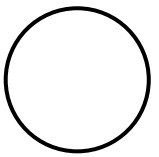

National Thrift Shop Day, celebrated each year on August 17, is a reminder that thrift stores do far more than offer great finds at great prices. Many thrift stores are nonprofit organizations, using donated items and store sales to support meaningful work in their communities.

When you shop or donate at a nonprofit thrift store, the dollars raised are reinvested back into the community through programs such as healthcare, housing support, job training, education, food assistance, veterans' services, and other essential resources. Thrift stores also support sustainability by keeping usable items in circulation and out of landfills, contributing to a more circular way of consuming.

This Thrift Store Crawl brings these ideas together by inviting you to visit local thrift shops, discover new stores, learn what each one supports, and see how shopping thoughtfully and donating intentionally can create real, positive change for both the community and the environment.
